PROFESSIONAL EXPERIENCE

Quality Control Engineer

SG Name Card, Trichy

📅 July 2023 – Oct 2024

- Digital Name Card is an online platform that allows users to create and share their digital business cards seamlessly.
- Performed positive and negative test scenarios to ensure software stability and user experience.
- Conducted manual and functional testing for a Digital Name Card platform involved.
- Skills Developed: Functional Testing, Cross-Browser Testing, Usability Testing, Defect Tracking, Bug Tracking.

Software Test Engineer Intern

Inmakes Infotech Pvt. Ltd

📅 April 2023 – July 2023

- I learned to design and execute test cases, identify defects, and ensure software quality.
- Gained hands-on experience in SDLC and STLC, understanding different phases of software testing.
- Contributed to delivering reliable, high-quality software products by leveraging expertise in test automation
- Skills Developed: Core Java, SQL, Selenium WebDriver, TestNG, POM, Rest API, Manual Testing.

PROJECTS

The Scent Arts

Manual Testing, Test Scripts, Agile, SDLC, STLC, Defect Tracking

- This project tests The Scent Arts e-commerce website by checking brochure downloads, ordering Harmony oil, and verifying missing products in the Car Diffusers category.

CIT Bank

Java, Selenium WebDriver, Data-driven framework

- This project automates testing of the Certificate of Deposit (CD) Calculator on the CIT Bank website using Selenium WebDriver for web automation and Apache POI for Excel handling. It simulates user input, performs calculations, and verifies results against expected values.

Amazon

Java, Selenium WebDriver, Cucumber BDD framework, TestNG

- Amazon Sign-in functionality is a user authentication feature that allows customers to securely access their Amazon accounts. It is designed to ensure a seamless and secure login experience.
