Profile Summary

A highly capable testing professional who enjoys the synergies of proving concepts, a very ambitious and detail oriented software tester with broad experience in quality control work associated primarily with testing other applications to ensure their accuracy. Process Improvement, Defect Identification, and Root Cause analysis are things I got drilled into my head by experience through a quality control background.

Professional Experience

Quality Control Engineer

(Present)

Singapore Digital Name Card Pte Ltd, Trichy

- Spearheaded quality assurance processes, ensuring the delivery of high-quality digital name card products to meet industry standards and exceed customer expectations.
- Conducted in-depth inspections and defect analyses, leading to the implementation of effective corrective actions and improved product reliability.
- Actively contributed to process enhancements, driving continuous improvement in the e-commerce sector.

Software Test Engineer Internship

(April 2023 – July 2023)

Inmakes Infotech Pvt. Ltd, Kochi

- Successfully completed extensive training in Manual Testing, Automation, Appium, and API testing, demonstrating strong proficiency in each area.
- Engaged in diverse projects employing tools like Selenium WebDriver, Appium, Jira, Maven, Jenkins, and Postman to deliver robust software solutions.
- Collaborated with development teams to identify and resolve defects.

Education

Master's Degree in Computer Science (2021 – 2023)

Bharathidasan University, Tiruchirappalli

Bachelor's Degree in Computer Science (2018 – 2021)

Pavendar Bharathidasan College of Arts and Science, Tiruchirappalli

Certifications

- Master Scrum Basics on Udemy (June 2024)
 - SQL Bootcamp by Sara Academy on Udemy (June 2024)
